

AY Consulting's Remote Backup service provides fast incremental file transfers from your business to any remote location you choose. This off-site backup service protects your critical data from natural disasters, such as fires and earthquakes. You can rest assured that your data is secured using our encryption method.

Features:

Fully automated (no maintenance or tape changes necessary)

- Daily backup report emailed to you.
- Active-Directory and Exchange compatible
- Support for ALL major Platforms (Windows / Mac / Linus / Unix)
