

If you need to be free from the clutter and constraints of cables, the recent advances in wireless technology enable you to work when and where you want.

Wireless networking solutions from AY Consulting can help you unleash the full potential of your business. Our Wireless Services include providing a "total turnkey" wireless infrastructure solution, to support Internet Access, Network Access and File/Print sharing, at a fraction of the cost of traditional cabling and wiring methods. This gives you the ability to communicate and have high-speed connectivity to the Internet or Network Server files, via any type of computer anywhere in your building.

We can provide strategy, design and implementation services to help you conduct business virtually anytime, anywhere. We'll help you select the right products, services and support, choose vendors and suppliers, integrate new elements, and manage the network.
